C: How To Connect	14
D: App guide	21

i) What is BYOD?

“Bring your own device” (BYOD) refers to students bringing a personally-owned device to school for the purpose of learning. A personally owned device is any technology device brought into the school and is owned by a student or the student’s family. There are different models of BYOD. Randwick Girls’ High School has chosen a BYOD model that will meet the needs of most families according to data from student surveys and parent surveys. Randwick Girls’ High School students will be asked to bring their own laptop or tablet to school.

Randwick Girls’ High School recognises the need to prepare our students for a rapidly-changing world, where technology plays a large role in our personal, social and professional lives.

ii) Why BYOD?

The BYOD Policy replaces the Digital Education Revolution student laptop program that concluded in 2013. Students who have previously been issued with a DER laptop may continue to bring this device to school or they may prefer to bring an alternative computing device that meets the device specifications of the BYOD policy. Students who are no longer using their DER device are encouraged to donate it to the school.

Technology plays a large role in our students’ lives and personal devices can enhance and enrich learning opportunities both at school and at home. Randwick Girls’ High School is committed to allowing responsible, learning-centred use of personal devices at school so as to provide as many pathways to understanding as possible for our students. Many students already bring their own devices to school and are already using them in class to enhance their learning.

iii) Equity and BYOD

Randwick Girls’ High School will provide access to technology for all students regardless of the family’s financial situation. All students will have access to ICT resources to fulfil their educational requirements such as access to computers in the homework centre, library, computer rooms 220, 306, 307 and use of laptop trolleys within the class environment. A wireless network with filtered internet connection is provided to all students in all learning spaces. Support documentation can be found on the school website.

BYOD @ Randwick Girls High School

BYOD (Bring Your Own Device) refers to students bringing a personally-owned device to school for the purpose of learning. From 2015, students will be asked to bring their own devices to school. Randwick Girls' High School recognises the need to prepare students for a rapidly-changing world where technology plays an increasing role in students' everyday lives. Consultations with students, parents and teachers showed BYOD brings many benefits to student learning.

Which device can students bring to school?

Students can bring a laptop or tablet to school. The laptop or tablet must follow the required specifications. Students currently bringing their own devices to school find iPads, PCs Macbooks and Chromebooks the easiest to work with.

Device recommendations

To ensure BYO devices are able to operate with the Department's WiFi, **5GHz dual band** is recommended, **802.11 a/b/g/n** wireless.

Battery life

It is recommended that batteries last for **8 hours** without charge.

Memory and RAM

recommendations:
256GB storage and **8GB RAM**

Hardware features Devices may have a **camera** and **microphone**.
Min 11" High Definition Screen
Hardware keyboard
Pen optional Digitizer
Passive Pen – Will do

Software and apps

Devices may have software or apps that allow for:

- internet browsing
- notetaking -
- word processing
- creating spreadsheets
- creating presentations

Students can download free Microsoft & Adobe software for laptops at bit.ly/byodsoftware.

Active antivirus software is recommended on laptops and Android devices.

Student responsibility

- sign the BYOD student agreement with their parent/ carer before bringing their own devices to school
- ensure their devices are safe and secure at all times
- keep their devices safe using carry cases, screen guards, etc
- use devices according to school and NSWDEC policies

Families may choose to purchase insurance for student devices.

v) Student Responsibilities

The following will be the students' responsibility when using the BYOD:

- Device will be used only for learning purposes when in the school grounds
- Not to disclose/share students own portal/internet login details
- Not to hack or bypass any hardware and software security implemented by DEC
- Not to use the device to knowingly search for, link to, access or send anything that is
 - o Offensive
 - o Pornographic
 - o Threatening
 - o Abusive
 - o Defamatory
- Agree not to give out my personal information to strangers for my own safety
- Acknowledge that the school cannot be held responsible for any damage to/theft of my device
- Agree to use the device according to the teachers' instructions
- Bring a device that matches the school's wireless specifications
- Students will be responsible to bring a device that is fully charged to school
- Students will be held responsible if they caused damage to another students' device, according to the school discipline system.
- Acknowledge that the student agreement must be signed by my parent/carer and myself before bringing my device to school.

vi) Randwick Girls' High School BYOD FREQUENTLY ASKED QUESTIONS

Q/ What happens if my child's device is lost or stolen?

A/ Any damage to a device that a student brings to school will be the student's responsibility. Theft will be dealt with as part of the school's existing Discipline policy. Families may consider purchasing insurance and/or an extended warranty for the device.

Q/ Can the device be charged at school?

A/ Most learning spaces do not have the capacity to charge devices. Students need to bring their devices to school fully charged.

Q/ Will there be a place at school for devices to be stored?

A/ No. Students should keep their device with them at all times. They should not leave them unattended.

Q/ Will there be an internet filter applied when the device is used?

A/ While at school, students will be restricted by the NSW Department of Education and Communities filtered internet service. All social media sites, and inappropriate sites, are blocked while students are at school.

Q/ Does the Department provide any software for students?

A/ Yes, the Department of Education and Communities provides a number of software programs available for free download through the Student Portal. The link is:

bit.ly/byodsoftware

Students sign in using their DER email, set a password for the site, get an email with a link back to the site. This site has Microsoft + Adobe products.

Q/ Will I be able to put my own apps and programs onto my device?

A/ Yes. Parents and students are able to install their own apps and programs on their devices. These are at the discretion of the parents.

Q/ Will the school be doing a bulk purchase of devices for students to buy?

A/ No. The ethos of the BYOD policy is that students will be purchasing the device that best suits their needs and appeals to them the most.

Q/ Will my child be disadvantaged if she can't bring a device to school?

A/ No. The school will be able to provide access to devices if they are a required component of the lesson.

vii) Randwick Girls' High School

Bring Your Own Device Student and Parent Agreement

Students must read this agreement in the company of their parent/carer unless excused by the Principal. This page is to be signed and returned to the school. By signing at the bottom of this page students agree to the following behaviours:

- I agree that my use of the NSW Department of Education and Communities' (NSWDEC) internet will be primarily for learning.
- I agree to only ever use my own portal/internet log-in details and never share those with others.
- I agree to not hack or bypass any hardware and software security implemented by NSWDEC or my school.
- I agree to not use BYOD to knowingly search for, link to, access or send anything that is:
 - offensive
 - pornographic
 - threatening
 - abusive
 - defamatory
- I agree to report inappropriate behaviour and material to my teacher.
- I agree to stay safe by not giving out my personal information to strangers.
- I understand that my activity on the internet is recorded and these records may be used in investigations, court proceedings or for other legal reasons.
- I acknowledge that the school cannot be held responsible for any damage to or theft of my device.
- I agree that use of my device during school activities is at the direction of the teacher.

APPENDIX A

BYOD specifications

Types of devices students can bring to school

A range of devices in a range of price categories will meet Randwick Girls' High School Device Specifications. Students may choose to bring:

A laptop,

A chromebook

A tablet/ipad

Students are encouraged to bring a computing device from home that they are already familiar with using. *Smartphones are not considered an acceptable learning device.*

Device Options

There are a range of devices that students could choose to bring to school as part of a BYOD program. Please see the following fact sheets on the below devices.

This page will host the wide variety of resources and links to do with specific devices and their use. Click on the logo below for the device you want to learn more about.

Android
Tablets &
Phones

Chrome Books
and Browser

iPad and
iPad Mini

OS X

Macbooks and iMac

Windows 10

APPENDIX B

Parent Advice on BYO Devices

This one page guide highlights the key features that will aid a successful BYOD experience. It is broad enough to allow for a range of options.

Personal Accounts for the App Store or Google Play

While teachers are excellent at finding free apps that students can use on their mobile devices, it is important to remember that the minimum age for use of an App Store is 13yrs. Parents are therefore advised to update devices for children under 13.

Antivirus - Protect your Data

Be aware that the NSW DEC BYOD Policy requires users to have a current antivirus system on their device to protect user data and DEC infrastructure. See device pages for specific recommendation.

Fact sheet 1: Advice from the DEC on Android Tablets in Schools

While the BYOD policy does permit mobile phones to be used in the classroom as learning tools, for ergonomic reasons tablets are recommended as more effective learning tools for the duration of a school day.

Ask this question before you buy an Android device for BYOD:

“The NSW Department of Education has a 5ghz (n) wireless network that uses a *full range* of channels. Will this device connect on all channels in the 5ghz range?”

Do not purchase an android device for BYOD unless the answer is “yes”.

Antivirus - Protect Your Android

Note: Require version 4.1 or higher. Android devices with version 3 or lower of the operating system are unable to connect to the DEC wireless due to a lack of proxy support. Also many Android apps currently do not support the DEC proxy.

As part of the NSW DEC BYOD Policy, you are required to maintain an active antivirus application on your device.

Minimum Device Requirements

OS: Android 4.0
Wireless: 5ghz
802.11n Browser:
Chrome
Input options: touch
screen Screen Size: 7
inch
Battery Life: 4 hours
Storage Capacity: 8
Gig

Learn more about how Androids can be used in the classroom

What happens when every student has his or her own personal, connected mobile device for personal use and for learning? Are mobile devices appropriate tools for writing papers and creating content that conveys understanding, or are they best suited for consumption? Are Android devices a good alternative to the more expensive and popular iOS devices?

Information on this page is of an advisory nature that will support effective classroom learning.

Fact sheet 2: Chrome OS

What is a Chrome Book?

While these machines are functional and will operate in the classroom parents are advised to consider the durability of a device.

Requires constant internet connection.

Antivirus - Protect your Chrome Book

According to Google, Chrome Books are designed not to need extra antivirus protection.

Information on this page is of an advisory nature that will support effective classroom learning.

IMPORTANT CHANGE:

When signing on
to access an
Internet website,
you'll need to
add @detnsw
to your normal
Portal User ID

School-owned Windows computers will no longer prompt for credentials
when trying to access the Internet (in eT4L schools).
Personal BYO devices, Apple Macs, and school-owned non-Windows devices will.

When prompted, remember to add
@detnsw to your User ID

e.g. first.lastname@detnsw

Education

Apple MacBooks

Wifi Symbol, System Preferences, Advanced, Proxy. Auto
Detect

Settings...Wi-Fi...detnsw...

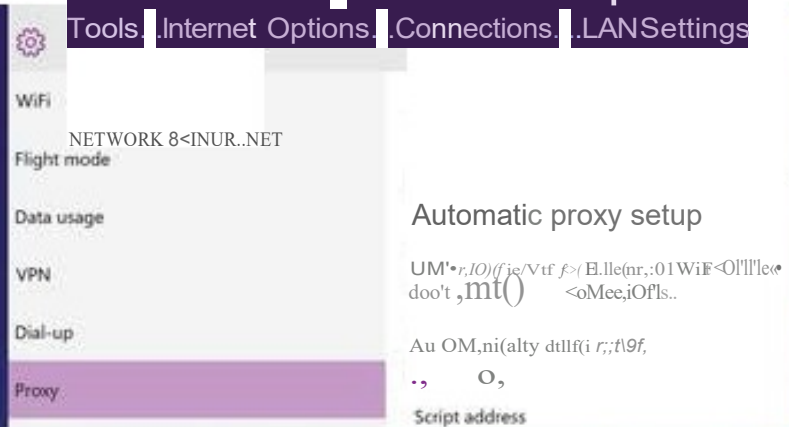

Manage Network Settings

st.. u• iow,r.-.

Windows/Internet Explorer

Tools | Internet Options | Connections | LAN Settings

GENERAL STEPS:

1. Connect to detnsw OR nswdet – (forget and recreate if you are having problems connecting)
2. Authenticate to the WiFi using first.lastname@detnsw with your password (your portal ID)
3. Configure the proxy settings as described above
4. When prompted to authenticate for Internet access, use first.lastname@detnsw with your password

1 •

Anonymous Identity

Password

(u 31 ;e

0 Show password

@,, ow advanced options

IPsemngs

E>

Pro

Auto-config

h11b/pac.dtt.nsw. u.au/flbptoxy.pac

NOTE: If your device does not support auto-config, you can set **Manual** proxy using *proxy.det.nsw.edu.au* on Port 8080

A change to the login process for BYODs

Everyone who uses a BYOD or school-owned non-Windows device* will need to log onto the internet by:

- browsing to: **http://detnsw.net**
- logging into the portal with:
firstname.lastname@detnsw
- Chromebook, iPad, Mac, iPhone, Android or Windows BYOD

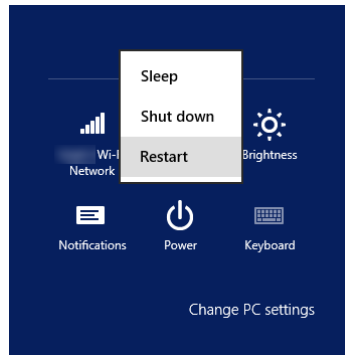

Make sure you log out

Problem authenticating with your Windows BYOD?

If you are connected to the school's Wi-Fi but aren't asked to authenticate for Internet access, try these steps one at a time and test again. **If it works, stop.** If not, try the next step.

When did you last RESTART?

Windows 8.1

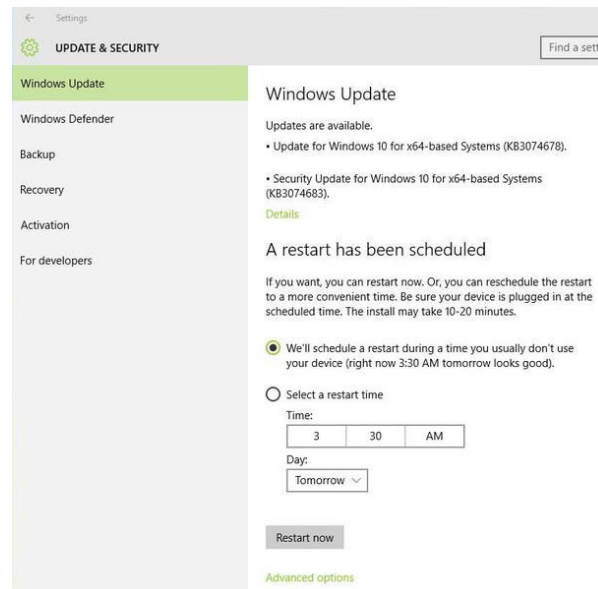

Windows 10

Install all Important and Critical Updates

Settings...Update & Security

Check for updates and install them

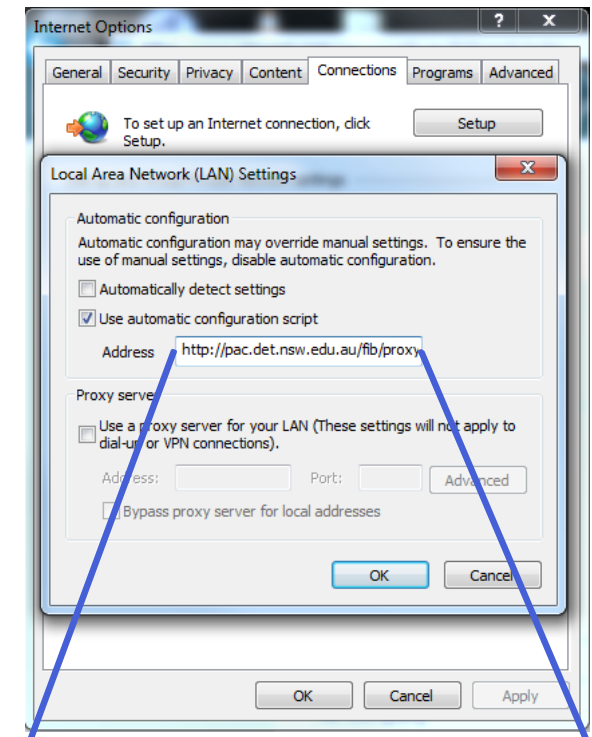

It is **essential** that **all of the important updates** for **Windows 8.1** and **Windows 10** be applied. But please take note that access to Windows Update is **blocked in school from 9am to 3pm** so apply them outside these hours or at home.

If 'Auto Detect Settings' won't work

Windows / Internet Explorer

Tools...Internet Options...Connections...LAN Settings

<http://pac.det.nsw.edu.au/fib/proxy.pac>

NOTE: If there are still problems, try setting up a local user account rather than using a Microsoft Cloud account for logging onto Windows

Fact sheet 3: iPads and iPad mini

While the BYOD policy does permit mobile phones to be used in the classroom as learning tools, for ergonomic reasons tablets are recommended as a more effective learning tool for the duration of a school day.

Antivirus - Protect Your iPad

The BYOD policy requires that students keep an up-to-date antivirus system on their device. However there are currently no known viruses for iOS 6, rendering the need for such an app unnecessary.

Apps for Learning Series

With so many educational apps on the App Store, there's no limit to the learning possibilities at your fingertips. Take a look at this curated list, split into subject area for easy review.

Accessibility

Intuitive by design, iPad, and iPod touch also come with assistive features that allow people with disabilities to experience the fun and function of iOS. With these innovative technologies built right in, iOS devices become powerful and affordable assistive devices.

Apple in Education

iPad inspires creativity and hands-on learning with features you won't find in any other educational tool — on a device that students really want to use. Powerful apps from the App Store like iTunes U and iBooks let students engage with content in interactive ways, find information in an instant, and access an entire library wherever they go.

Information on this page is of an advisory nature that will support effective classroom learning.

Fact sheet 4: OS X Macbooks and iMAC (Apple Mac Products)

This page will provide details on using Apple Mac products in the classroom. Apple products can be purchased with educational discounts, check with your local dealer.

Antivirus - Protect your Mac

As part of the NSW DEC BYOD Policy, you are required to maintain an active antivirus application on your device. See this article from PCMAG.com to learn about the various antivirus applications available.

Mac Laptops

These devices come in two main forms. The MacBook Air is designed for mobility while the MacBook Pro is designed for power.

Windows Device Options

The NSW DEC BYOD Policy requires computers to be running operating systems that are currently supported by their manufacturer. This means that Windows XP falls outside the BYOD policy as it is no longer supported by Microsoft. These machines are not eligible to be connected to the schools' Wi-fi.

Protect Your Device - Antivirus

By using your own personal device at school, you agree to the terms and conditions of the NSW DEC BYOD policy which includes the use of antivirus software.

Information on this page is of an advisory nature that will support effective classroom learning.
