WELCOME

PRINCIPAL'S MESSAGE

Dear Parents and Caregivers

It was a joy to join with the staff at Randwick Girls' High School to celebrate an international event last Friday 28 October, as it was the World Teachers' Day. On this day, we joined with other educators around the world to celebrate teaching as a career and together we remembered once again why we went into teaching – to educate the next generation! A huge thank you goes to the P&C for the scrumptious lunch provided on this day, and the parent body for the lovely messages for the occasion.

Year 12

This cohort sat for their last HSC paper on Friday 4 November. I commend each one of them for their hard work and dedication. It has indeed been a hectic period of examinations. From here on, I know they will enjoy their hard-earned break in the next few weeks before they decide their next course of action. Any student requiring careers

Principal's message continued on next page

Year 7 Geography Mapping

Year 9 Geography using satellite imagery

Principal's message continued

advice can visit the school and speak to the teachers or to the Careers Adviser.

I look forward to meeting the students next Friday (11 November) as it is the school's clearance day. On this day students will return any equipment or books they have borrowed from the school and pay any outstanding fees. The school reference will be handed out to students on this day.

LEAP Program

We welcomed 14 Primary Five students from our local Primary Schools on Thursday this week to the RGHS inaugural enrichment program. They were accompanied by their parents who also attended part of the introductory lesson. Our SRC members were on hand to welcome them, and they were also taken on a school tour during the day.

Indeed, it was a delight to witness such enthusiasm from the Year 5 students. As mentioned before, this is a collaboration program involving RGHS teachers guiding these young students to hone their communication, collaborative and independent skills through an enrichment program.

Working Bee

Please come and join us this Sunday from 9:00 to 3:00. If you are not able to come for the day, feel free to drop in for some of the time. There are quite a few jobs to do around the school and we would love to see you!

Lucy Andre
Principal

The NSW Department of Education has just launched a new campaign to promote the teaching profession.

The *Teaching Opens Doors* campaign features a number of teachers and students from NSW public schools and highlights the ways in which teaching opens doors to a number of opportunities within and beyond the classroom. You can find out more about the campaign at

education.nsw.gov.au/teachingopensdoors

From the Deputies

It gives me great pleasure to congratulate the graduating class of 2022 on the completion of their Examinations. The achievement of a Higher School Certificate is tremendously important, and they should be very proud. As a dedicated group they have actively engaged in their learning and community. They have been significant role models and have helped us to build a positive school culture.

Year 10 undertook their examinations and demonstrated maturity. I encourage all year 10 to maintain that same positive attitude and demeanour you've had all year and carry that through the last term before you step into Year 11 and fully embrace yourselves as leaders in our school.

Attendance Matters!

Did you know that attending school every day has enormous long-term benefits for our students entire lives. It connects students not only to school but also their peers and helps build strong relationships with the adults that are here to support them. Our school works extremely hard to support students to attend school every day. You can improve attendance by having a good routine, pack your bag each night for the next day, get to bed early, eating healthy and most of all, ask for help if you need it.

LEAP Leading, Engaging, Accelerating, Pioneering

This week marked the launch of the RGHS LEAP Program, coordinated by Mrs Sander. Students in the LEAP program come to RGHS for one day a week for six weeks and undertake challenging units designed specifically for their ability level. The 2022 program will incorporate cross-curricular studies in a number of Key Learning Areas with a focus on 'I Can Make a Difference'. The activities will extend students beyond the normal curriculum and are designed to cater specifically for the educational needs of highly and divergently gifted students. The LEAP experience is both rich and meaningful as students augment their ability to think critically and make connection.

World Teachers Day

World Teachers' Day provides us with the opportunity to thank the RGHS teaching staff for their tireless commitment to education. They ensure our students are known, value and cared for, and are engaged and challenged to continue to learn every day.

I would like to extend my sincere gratitude to the RGHS P&C for the work put into organising the special luncheon and messages of appreciation for staff. Thank you!

Regards
Mrs Reilly

It's has been a busy start to the term and classes are currently finalising assessments in many courses. Please be reminded that it is an expectation that students' will continue their learning through to the end of the term.

Important dates coming up for year groups:

Years 11/12

Changes to courses have been made. If students would like to apply for a flexible start or leave time, they must collect an application form from the Deputy Principal's office. This form must be signed by a parent and have the students' timetable attached. If this process has not been followed times may not be approved.

Year 9 into 10 elective choices for 2023:

A general reminder that elective choices for 2023 are due **Friday 4 November**. Please complete online print off choices and have a parent sign them and hand them to Ms Jordan (Creative Arts).

Year 9 Check In assessments will be held in Week 6.

Reading

Wednesday 16 November Periods 1-2 (English classes)

Numeracy

Friday 18 November Period 1-2 (Maths Classes)

Year 7

Check in assessments will be held during Weeks 5 and 6 for Reading and Numeracy.

A general reminder about social media use. It should be used in a positive manner and should not be used to communicate issues. Parents are advised to monitor social media use. Please see below some resources for parents to support social media use:

[Parents | eSafety Commissioner](#)

Find advice for parents and carers to help children have safe, enjoyable experiences online.

www.esafety.gov.au

Just to advise that Dr Chapman will be Relieving Deputy Principal from Week 6 through to the end of the term in the absence of Mr Rekic. It has been a pleasure to relieve in the Deputy Principal chair for the last 5 weeks.

Regards
Mrs Roberts

MATHEMATICS NEWS

Congratulations Year 12 Extension Mathematics class 2022

Our class worked very hard all year progressing through class work and assignments, motivated by class challenge games and fierce competitions. We always looked forward to our double period of mathematics which equalled wagon wheels. We all celebrated the end of the year with a class party with our guest of honour Ms Posener. We enjoyed the various treats cooked by our talented girls to celebrate the end of a very successful year. Best of luck class of 2022.

Ms Wong

RGHS Excellence in STEM Award 2022 – Lyssa

For the first time this year we established an Excellence in STEM Award, inspired by the outstanding achievements by an exceptional Year 12 student, Lyssa, across a large number of STEM HSC subjects.

In particular, Lyssa has been highly successful in embedding broad and deep knowledge, problem solving and critical thinking skills expertise across Extension 1 Mathematics, Mathematics Advanced, Physics, Chemistry and Science Extension.

Her investigation tasks for both Mathematics Extension and Mathematics Advanced achieved the top grades and her Science Extension project was top of the course. Lyssa achieved first place in Physics, first place in Mathematics Advanced, second place in Mathematics Extension 1, first place in Science Extension and second in Chemistry.

We are proud the UNSW has agreed to support our award for Excellence in STEM and very excited to present this first RGHS Excellence in STEM award to Lyssa Thomas.

Barbie Bungee 8MA1

Barbie has had many different experiences since she was first seen in 1959. She has had more than 150 careers on her resumé – from pilot to police officer, registered nurse to rock star, veterinarian to aerobics instructor. This week 8MA1 enabled Barbie to experience the thrills of a bungee jump!

In this project, 8MA1 worked in groups to create a bungee jump for a Barbie doll. Their objective was to give Barbie the greatest thrill while still ensuring that she is safe.

Using mathematical conjecture, collecting experimental evidence and graphing of the linear relationship between the length of the cord and the distance Barbie drops, 8MA1 found an algebraic rule that predicted the cord length required so she should come as close as possible to the ground without hitting the floor.

The conjecture was:

I believe that _____ is the maximum number of rubber bands that will allow Barbie to safely jump from a height of 479 cm.

The conjecture will be tested by Barbie attempting a bungee jump from the Level 3 flagpole down to the Quad.

Stay tuned - the big competition is to be held next week!

New Maths Teacher

The Maths Faculty is very pleased to welcome Mr Rolfe Kolbe to our teaching team.

Mr Kolbe has been teaching for 30 years and he is excited about joining our Maths and TAS departments. He has many links with the school already as both his daughters went through RGHS with Tess finishing this year.

Mr Kolbe has been working in roles over the last 12 years related to whole school approaches to use of technology for learning and training staff and students in this area. He is passionate about maths and technology with a big focus on real life applications of content and interdisciplinary approaches. He loves learning and has shared and presented at many conferences across Australia.

He has supported with the Girls Inspired To Innovate (GITI) programs for Year 7 and 8 over the last two years and he takes on three GITI classes this term alongside his Maths and TAS classes.

You may have seen Mr Kolbe in the Indigenous Garden as a parent and P & C member where he designed and built the Garden alongside Ms Hall. He looks forward to continuing with the development of this space and others around the school.

SOCIAL SCIENCES REPORT

Breaking News

Congratulations to Mr Ismail and his wife Jessie on the birth of their son on Monday 31 October

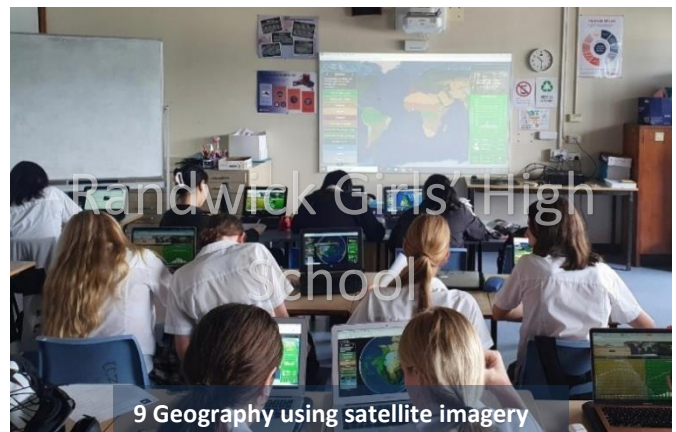

Now, continuing with faculty curriculum updates this report focuses upon our work in the Year 7 Geography course this year. An integral section of all stages of Geography 7-10 is the use of geographical tools/skills. These are used by geographers to assist in the acquisition, processing and communication of geographical information. Broadly these tools/skills are categorised under the headings:

- Maps – in both digital and non-digital forms
- Fieldwork – has been limited somewhat by Covid
- Graphs and statistics
- Spatial technologies – interacting with real world locations
- Visual representations – diagrams, images, cartoons, symbols, models etc

Various components of these broad categories of skills have been utilised in implementing the content areas for Stage 4 Geography this year. These content areas have been:

- Landscapes and Landforms
- Place and Liveability
- Water in the World
- Interconnections

Stage 4 Assessment items in Semester 2 have included a written report on a water based natural disaster incident and an examination integrating both content and geographic skills.

Mr James
Head Teacher

UNION BANK of SWITZERLAND

Earlier this year, major global financial company UBS invited applications from Year 11 students in public and private high schools across NSW for two special programs. These two-day programs at the corporate head office in the city sought *the best and brightest* interested in future careers in finance and banking. They were held during the September-October school vacation. Only 45 students were selected for each. The application requirements included a detailed CV, a one-page personal statement and a letter of support from the School Principal. Randwick Girls' High students who were studying HSC Economics and Business Studies were invited by the Social Sciences Faculty to apply and given assistance with their applications.

The Finance Academy was held on 28 & 29 September and was attended by Jesslyn (Economics) and Leila (Economics & Business Studies)

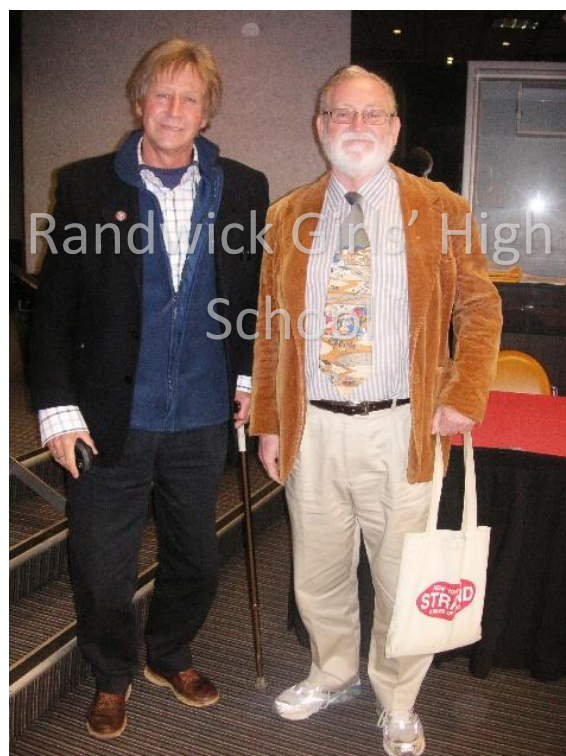

"In the Finance Academy, conducted each day from 8.30am till 5pm, the course consisted of activities & discussions with employees and external contributors. We learnt about global investment and the role of UBS. We were able to make new friends and gain an insight into career opportunities while mixing with employees and cadets during canape functions.

Particularly memorable was an interactive case study regarding a major recent acquisition involving Sydney Airport. This excellent project enabled us to work in teams and think constructively about the decision making processes necessary. We experienced first hand the nature of the advisory role of UBS and were guided by the board members involved in the final decisions. We were also able to meet Ross Gittins, the Economics editor of the Sydney Morning Herald. Ross writes weekly Economics opinion columns and he shared with us his career path and what is involved in his research and seeking of current information.

Overall this was an incredible experience that we thoroughly enjoyed and learnt so much from."

Leila & Jesslyn with Ross Gittins (SMH Economics Editor)

Mr James with Ross many years ago

Young Woman's Leadership Academy

The Young Woman's Leadership Academy was held on 5 & 6 October and was attended by Cassiopeia (Economics & Business Studies) whose report follows.

"I was very privileged to be one of the 45 Year 11 students across NSW to participate in The Young Women's Leadership Academy held by UBS. This was an invaluable experience for me. My previous exposure to the world of finance and banking was limited to Economics and Business Studies classrooms. The academy provided an overview of various markets, concepts and sectors including that of Global Wealth Management, Asset Management and Investment Banking. I met leaders of UBS including CEO Ralph Hamers and Australian Head of UBS Alison Telfer. The important philosophy reinforced was *Make your luck, don't hesitate to signal ambition and be clear about what you want and what skills you bring*. UBS equipped me with rare insights and the knowledge needed to pursue a career in the competitive world of finance. Importantly to me, I now know the career goal that I will work towards during my ongoing secondary and tertiary studies. We received morning and afternoon tea, as well as lunch on each day and received a goodie bag containing a drink bottle, pens and a note pad. Aside from being an educational experience, I also had the chance to meet girls my age from different schools. I have maintained these contacts. It was great to be surrounded by people with the same interests and passion as me. My favourite event was the canapé function where we networked with UBS employees. CEO Ralph Hamers visited UBS Australia for the first time during the program. After his speech I did not hesitate to be the first to approach him and receive mentorship from him. The UBS Young Women's Leadership Academy was a formative experience that I am grateful to have had the chance to attend. With utmost respect, I thank Mr James for facilitating this opportunity."

Jesslyn, Leila and Cassiopeia
Year 12 2023

Civics and Citizenship Program

Congratulations to Ruby who was selected to participate in the Civics and Citizenship program! We are very proud of Ruby to be representing Randwick Girls' High School at such an important event.

"The Civics and Citizenship program was an amazing opportunity to learn more about the Australian democratic system and issues facing the future of our democracy. The day began with an introduction to NSW parliament house with a tour of both the Legislative Assembly and Legislative Council and explanation of the procedures in each house. We then joined the zoom with all the other states and were officially welcomed to the program by Dr Michele Bruniges, the Secretary of the Department of Education. This was followed by three engaging keynote speakers who spoke on the topic of the day of whether Australia should have compulsory voting. The first keynote speaker Emeritus Professor Judith Brett introduced us to the history of compulsory voting in Australia and the impact that things like the secret ballot have made on universal democratic processes. Professor Christine Wallace then presented some of the arguments for and against compulsory voting and Professor Mark Evans introduced us to voting procedures in other democracies. After hearing from the amazing speakers, we got into smaller groups to discuss our opinions on the topic. This was an amazing opportunity to get to know other students from schools across NSW and have smaller discussions about what the topic means to us. We then came back together and were given the opportunity to present our ideas to the whole group. After everyone had presented their ideas, we were asked to vote on the topic with an overwhelming majority voting in favour of keeping compulsory voting. Finally, the program closed with a communique being presented to the President of the Senate, the Hon Sue Lines. Overall, the program was an amazing opportunity and really interesting opportunity to discuss and debate a topic that has the potential to change the future of Australian politics."

Ruby (Year 10)

Wellbeing Webinar

We at Randwick Girls' High School are passionate about catering for student welfare and working alongside parents and guardians to put in place support for our learners.

As the only medical research institute in Australia to investigate mental health across the lifespan, Black Dog Institute aims to create a mentally healthier world for everyone.

Black Dog Institute is offering a useful workshop focusing on teens mental health. It is designed to equip families with useful information regarding student wellbeing, as well as depression and anxiety and when to seek help for children in need. The presentation is online and all details, including how to register for those that are interested can be found below.

Free online webinar for parents presented by Black Dog Institute:
Navigating your Teen's Mental Health

When: 15 November 2022 12:00 PM

Where: Zoom, online

How: Register at this link: https://us02web.zoom.us/webinar/register/WN_mNB9Jfj3QqqOCb8e6pH1Og

OR

When: 14 December 2022 7:00 PM

Where: Zoom, online

How: Register at this link: https://us02web.zoom.us/webinar/register/WN_mGS4tGGUSdqWA2Ez_A36uQ

Information from Black Dog Institute:

Normal mood swings or clinically depressed –can you tell the difference? Understanding mental health is a minefield for many of us, but that's where we can help. Our presentation developed by experts has been designed to help you answer questions like this and gives you the knowledge and practical advice to:

- Identify depression from normal mood swings
- Understand the types of mental health concerns
- Recognise the symptoms of depression and anxiety
- Know when professional help is needed
- Understand the range of treatment options
- Have open, meaningful conversations
- Spot and monitor the warning signs

Our free, 45-minute sessions are presented by community members with lived experience of mental illness. The presenters speak from the heart, sharing their personal story as well as our expert knowledge.

- This presentation is held completely online.
- We will provide a link to the webinar upon registration, 24 hours and 1 hour before the start time.
- This webinar requires a computer and stable internet connection

Ms Garcia

RANWICK GIRLS HIGH SCHOOL

INDIGENOUS SUSTAINABLE GARDEN

RGHS WORKING BEE

SUNDAY 6TH NOVEMBER

9.00AM - 3.00PM

(DROP IN ANYTIME!)

As many of you know, we have now completed the designing planning and developing an Indigenous Sustainable Garden and learning space for our school community as a part of our NSW Sustainable School Project. Last years working bee saw many people from our school community come and bring the garden to life. Thanks you so much for those who came and helped. We welcome parents and carers and their daughters to come and help finalise the garden.

Aims:

On **Sunday the 6th of November** we are having a working bee with the aim to complete the following:

- mixing, filling and moving cement (gaps in east wall)
- help on the Queen's Jubilee Garden
- drilling / helping mount up-cycled donated whiteboards to outdoor classroom walls
- weeding of garden and surrounding areas
- help paint upper wall (base coat)
- fill the new corrugated planters with soil in preparation for the new veggie garden (launching 2022)
- continuation of planting natives from Randwick Nursery
- mulch runs (wheel barrow)
- end of day tidy up

On the day we will have staff and students to help, we would love to see you there, even if its just for an hour or so!

Registration:

**SCAN / CLICK
TO REGISTER
HERE**

COVID-19 Information:

- Please check in at outside the front office on arrival
- Please to avoid attending if you have symptoms to prevent the spread

Vaping in young people

E-cigarettes, or *vapes*, are not safe for young people. They come in many shapes and sizes and can be hard to spot as they can look like everyday items including highlighters, pens or USB memory sticks.

Key vaping facts

- Many vapes contain nicotine. Nicotine can cause long-lasting negative effects on young people's brain development, including impaired learning ability and altered mood, and can increase the risk of depression and anxiety.
- Vapes can contain the same harmful chemicals found in cleaning products, nail polish remover, weed killer and bug spray, which can lead to serious lung diseases.
- Young people who vape are three times as likely to take up smoking cigarettes.

The law around selling vapes

It is illegal to sell vapes to anyone under the age of 18 years. Young people often purchase vapes online, from retail stores, or from friends and contacts on social media. You can report suspected illegal sales of vapes to [NSW Health](#) or by calling the Tobacco Information Line on 1800 357 412.

Talk to your child about vaping

It's important to take the time to talk to your child about the risks of vaping. Try to start the conversation in a relaxed easy-going way, and remember your goal is to have a conversation, not deliver a lecture. Importantly, get the facts at: www.health.nsw.gov.au/vaping

Vaping – what parents and carers need to know

Thursday, 10 November 2022

7:00–8:00 pm AEDT

P&C Federation is co-hosting this webinar with NSW Health and the NSW Department of Education to help parents and carers understand more about the facts on the health risks of e-cigarette use (vaping). You will learn about where to find more information including the NSW Government's *Do you know what you're vaping?* campaign and [Vaping Toolkit](#)

[Read more and register now](#)

Rewarding Excellence in Teaching

Wednesday, 16 November 2022

7:00–7:30 pm AEDT

P&C Federation is co-hosting this webinar with the Department of Education to give parents and carers the opportunity to hear about the Rewarding Excellence in Teaching project and how you can be involved in the consultation process.

The Rewarding Excellence in Teaching project aims to recognise excellence in classroom teaching and strengthen the practice of teacher colleagues, as well as making the profession more attractive to those who are considering pursuing teaching as a career.

The Department is currently developing the project through consultation with a wide range of stakeholders and educational partners from now until the end of November 2022.

[Read more and register now](#)

Costume Party

Sustainable Fashion Workshop

Join us for the next Cities for Tomorrow workshop "Costume Party" where you design and build the future you want.

For high school aged students in the Randwick area, we will show you how to use cardboard to design and create your own costume. At the end you can join in the parade if you are game!

In this workshop we'll have some fun and explore how the types of materials and the way our clothes are put together can make a difference. This is important because Australians send around 80% of our clothing to landfill and much of it does not break down easily.

THURSDAY, NOV 24, 4-7PM

Randwick Sustainability Hub | For more info & bookings visit
<https://events.humanitix.com/c4i-2022-costume-party>

We acknowledge and pay respect to the past, present and future Traditional Custodians and Elders of this nation and the continuation of cultural, spiritual and educational practices of Aboriginal and Torres Strait Islander peoples.

MORE THAN THANKS

Thank you to everyone who wrote messages of support to our fabulous teachers for World Teachers' Day! The staff were thrilled with the recognition and through your generosity we raised over \$700 to spend on another initiative at the end of term.

A big thanks again to our amazing teachers!

Dear parents of the RGHS P&C,

Thank you so much for thinking of us last Friday. Your kind words and generous lunch were very much appreciated by staff at Randwick Girls' High School.

Your gestures make us feel very special and proud to be your children's teachers.

Kind regards

*Lucy Andre
on behalf of staff at RGHS.*

Please join us this Sunday 6th November for our annual **RGHS Working Bee**! Parents, carers, students and staff are invited to pop-in between 09:00 and 15:00 to lend a hand in finalising our Indigenous Sustainable Garden and participate in the creation of two new garden spaces including the Veggie Garden and Queen's Jubilee garden funded by grants organised by the P&C.

We have been working towards designing, planning and developing an Indigenous Sustainable Garden and learning space for our school community as a part of our NSW Sustainable School Project. In 2022, we created the foundations with the help of many volunteers from our school community. Year 8 GITI students have been working throughout the year to develop and design ways to turn the area into an interactive e-learning space through the design of signage and infographic media to be linked through the use of QR codes which we are excited to embed and share.

This Sunday we are having a working bee with the aim to complete a whole host of jobs including:

- mixing, filling and moving cement (gaps in east wall)- Queen's Jubilee tree planting and surrounding design
- measure, cut and sand timber for fence
- drilling / helping mount up-cycled donated whiteboards to outdoor classroom walls
- weeding of garden and surrounding areas
- help paint upper wall (base coat)
- fill the new corrugated planters with soil in preparation for the new veggie garden (launching 2023)
- continuation of planting natives from Randwick Nursery
- mulch runs (wheel barrow)
- end of day tidy up

On the day we will have staff and students to help as well as some lunch and refreshments kindly prepared by Mr Cheng. We would love to see you there, even if it's just for an hour or so. Please register your availability for you and/or your daughter(s) below. We are also hoping to source some equipment.

Registration:

<https://forms.gle/zZmRkGPBDVNYFoVd8>

A huge thank you to Rolfe Kolbe and Leanne Bergan so far for all their help, time and effort in organising the event!

Any question please email our co-ordinator Ali Hall on: alexandra.hall14@det.nsw.edu.au

We acknowledge and pay respect to the past, present and future Traditional Custodians and Elders of this nation and the continuation of cultural, spiritual and educational practices of Aboriginal and Torres Strait Islander peoples.   

CLOSEast is seeking anonymous respondents to this survey (less than 9 min to complete) relating to the funding of, and access to, public education in Sydney's Eastern Suburbs.

<https://www.surveymonkey.com/r/3M9JSKM>

NEXT P&C MEETING MON 21 NOV

Please join us in the Library (or via Zoom) for the final meeting of 2022. We will meet on-site in the RGHS Library. P&C will provide light refreshments. We hope to see you there!

THE SHOW - help needed

We are currently looking for a couple of committed volunteers to run the set construction and painting working bees for the school show.

The role involves communicating with the Artistic Director, Producer and Technical Director, set up and pack up of MPC and coordinating volunteer teams to create set items, providing help and guidance where necessary.

Set design is usually done as a team or by the technical director but that is something you can manage as well if desired. This role is mostly a practice in project management and while skills in woodworking and/or painting would be helpful, they are not a necessity.

The working bees are run every Saturday at the school but this could be split between multiple coordinators. Open to any adult in the Randwick Boys and Randwick Girls school community - parents, teachers, community members, ex-students etc. Some of the set props to be completed:

- 32 Banners (stretched canvas wood frame 2mx1m)
- 6 Door Frames (replicate existing set)
- Create wheel frames for existing doors
- 5 tables for the tea party in Alice in wonderland
- The Story Door (oversized door structure/house)

Please contact KYLIE.FAGAN@det.nsw.edu.au

NEWMARKET RANDWICK

School Community Info Session

Parents & carers of Randwick Girls' High School, Randwick Boys' High School & Rainbow St Public School are invited to hear from guest speakers CBUS Property about the latest Newmarket development

Tuesday 8 November | 6pm

Randwick Boys' High School Library
